REVEAL Floor Care Monitoring System

Made in the USA 

FAS-TRAK APPLICATIONS

Fas-Trak Industries is a proactive innovative manufacturer of performance related application technology for the maintenance & janitorial industry. Our passion is to create innovative performance solutions by redefining and expanding surface application processes.

Our proprietary patented technology is industry proven and addresses the main challenges related to floor care issues today namely – labor savings as well providing superior results. Our product solutions can be used on tile, terrazzo, concrete, gym floors and many other floor surfaces.

Take control of your floorcare program by utilizing our FMS as this system allows you to “know” the floorcare condition and facts. The knowledge and empowerment allows you to maximize your resources, removes the guess work and is fact based science.

FAQ's

Q. Why do I need this program?

A. Currently there is no program offered that allows a facility to determine the amount of DFT (Dry Film Thickness) of the chemicals used.

Q. Why do I need this system?

A. This system is science based and quantitative which will allow one to actually “know” what is on the floor instead of guessing. Knowledge is power!

Q. Do I have to use a particular brand of floor care?

A. No. We do not sell or endorse any brands which allows you to determine the chemicals you want to use. This is an unbiased approach to educating and empowering you to control your floorcare program.

SPECS AND FEATURES

- Monitor and manage the floor finish or coatings to maximize the ROI.
- Empower your facility staff to use science based facts to manage floorcare costs.
- Reduce overall floorcare cost by an average of 35%.
- Kit contains everything needed to fully monitor, measure and record data needed.
- Comprehensive instructional and training program manual containing only information relevant to floorcare principles.
- Designed to educate and elevate your staff to be the best.
- Patent pending. Made in USA.
